A WORLD OF EXCELLENCE AND OPPORTUNITIES

**The choices you make today will shape your entire life. Mohammadiya Institutions help you shape the world.**

I had a dream to contribute as much as possible for empowering the weaker sections of the society especially from the rural areas by imparting quality education. With this objective, along with a group of like-minded people, Mohammadiya Educational Society was established in 2001. The primary objectives of the society have been to impart quality education in the areas, where there is a dearth in the availability of such educational facilities. We have therefore set up a number of institutions offering courses such as MBA, MCA, B.Ed., B.Pharm, B.Tech; we also have planned to add various new courses, in the coming future which promise great employment prospects for the students.
